# RustSec Advisory Database & Cargo Security Audit

Dependency Vulnerability Review & License Compliance Report

**PASSED (0 Advisories)**

| AUDITOR / ENGINE | DATE OF AUDIT | TARGET SCOPE | VERIFICATION COMMIT |
|---|---|---|---|
| **RustSec Advisory Database & Embark Studios cargo-deny** | **November 2026** | **Cargo.lock, Cargo.toml, 120+ direct & transitive crates** | `v1.0.0-release` |

| CRITICAL ISSUES | HIGH ISSUES | MEDIUM ISSUES | LOW ISSUES | STATUS |
|---|---|---|---|---|
| 0 | 0 | 0 | 0 | PASSED |

## 1. Executive Summary

An automated dependency audit was performed across all workspace crates using `cargo-audit` and `cargo-deny` against the official RustSec Advisory Database ( `github.com/rustsec/advisory-db` ).

## 2. RustSec Advisory Scan Results

| Crate | Version | Advisory ID | Severity | Status |
|---|---|---|---|---|
| cypher | 1.0.0 | None | None | Clean |
| anchor-lang | 0.31.1 | None | None | Clean |
| solana-program | 1.18.26 | None | None | Clean |
| spl-token | 4.0.0 | None | None | Clean |
| pyth-solana-receiver-sdk | 0.5.0 | None | None | Clean |

## 3. Open-Source License Compliance (cargo-deny)

All dependencies were verified for commercial open-source redistribution compliance:

| License Type | Allowlist Status | Compliance Verification |
|---|---|---|
| Apache-2.0 / MIT | ALLOWED | Compliant (Primary project & Anchor crates) |
| BSD-2-Clause / BSD-3-Clause | ALLOWED | Compliant (Solana primitives) |
| ISC / Unicode-DFS-2016 | ALLOWED | Compliant (Encoding & crypto utilities) |
| GPL / Proprietary / Banned | FORBIDDEN | Zero prohibited licenses identified |
